# APH Scientific Quality Committee Embedding Form

Amsterdam Public Health research institute

# **General information**

- 1. Title of the research project:
- 2a. Name of main researcher:
- 2b. Email address of main researcher:
- 3. Name and email address of submitter (in case different than main researcher):
- 4. Names of all project members involved:
- 5. Name of the responsible professor/PI
- 6. At which department(s) is or will the main researcher(s) be appointed? Please also specify whether this department(s) belong(s) to AMC, VUmc, UvA of VU.
- 7. (Planned) start date of the project (DD / MM / YYYY)
- 8. Into which APH research program will this research project primarily be embedded? (please choose only one)

Health Behaviors & Chronic Diseases	Global Health	Personalized Medicine
Mental Health	Aging & Later Life	Methodology
Societal Participation & Health	Quality of Care	Digital Health

## APH Scientific Quality Committee Embedding Form

# Background

9. Please explain the **problem definition** of your research project:

10. Please explain the **relevance** of your research project (i.e. the expected added value for patients and/or client groups, expected societal impact), and more specific the relevance in relation to APH:

11. Please explain the **innovativeness** of your research project (are new/pluriform research methods applied? Are you combining different research areas that have mutual benefits ("kruisbestuiving")? Does it connect to or does it anticipate societal developments? Does it fill a knowledge gap?)

12. Please explain the **objectives** of your research project:

13. What is the research question and the associated hypothesis?

## APH Scientific Quality Committee Embedding Form

## **Methods**

14. Please describe the study design of your research project:

15. Please describe the study population/patients of your research project:

16. Please describe the data (collection) that is used for your research project:

17. Please describe the **analyses** that will be performed for your research project:

18. K \Uhare potential threats to or risk factors for your research project (budget, time, support, personnel)?

#### 19. Additional information:
