

Cancer Center Amsterdam

Clinical Impact Award 2022

Objective:

Each year, the Cancer Center Amsterdam grants a clinical impact award. This award is for (research) projects/products which resulted in a proven impact on clinical practice in the field of oncology.

The winner will receive the award at the annual CCA conference (6&7 July 2023) where he/she will give a presentation about the research.

Terms/conditions:

- The award is given to an individual or a team whose 'product' resulted in a proven impact on clinical practice in the field of oncology.
- The product can have many forms, such as a paper, a course, a guideline, a public campaign, an instrument etc.
- The product must be of high quality and innovative, and the clinical implementation must have societal or clinical impact on patient treatment or quality of life of patients.
- The clinical impact of the project was most pronounced between 1 January 2022 and 31 December 2022.
- The applicant must be an employee of the Cancer Center Amsterdam and should have played a significant part in the development of the product.
- The applications for this award will be evaluated on quality, novelty, relevance and clinical impact.

Call:

- Applicants must submit the application form for the clinical impact award.
- The deadline for applications is April 17th 2023 (cca@amsterdamumc.nl).
- Applications will be evaluated by the CCA research board. After selection of the highest ranked applications, people can vote on the nominees.
