"I arrived confused about what to do, I leave having a clear career vision and wanting to learn about finance, venture capital and aspiring to be a CEO."

Maya Wright
Sales and Account Manager, Cergentis

"I am confident that having attended the BioBusiness Summer School helped me to better understand the complex Life Sciences ecosystem, increased my network and opened new opportunities for my career."

Claudio Derada Troletti
Global Trial Leader, Janssen Pharmaceuticals

"BioBusiness Summer School enriched my vision on the possibilities after doing a PhD outside of academia. It got me excited for a future in biobusiness and guided me in my future process of job hunting."

Paris Asif
Strategic Business Development in Health and Life Science, Catalyze Group

30 June - 4 July 2025 | Amsterdam, the Netherlands
BIOBUSINESS SUMMER SCHOOL

Explore the fascinating world of BioBusiness

Are you a PhD, postdoc or master student in the field of Life Sciences and are you considering a career outside of academia? Or maybe you are already working in the Life Sciences industry, but wish to gain a better understanding of BioBusiness, broaden your network or even start your own company? Explore the fascinating world of BioBusiness and its many opportunities through BioBusiness Summer School in the Netherlands.

Since 2008, more than 750 international talents have participated in the BioBusiness Summer School. In these past years, BioBusiness Summer School has built a reputation for being an excellent start for a future career in Life Sciences.

BioBusiness Summer School helps you gain an overview of the career opportunities available in BioBusiness, understand the essential elements of BioBusiness, and identify previously unknown areas of interest. By immersing yourself in the business aspects of Life Sciences in five days, you will gain first-hand insight in the world of Life Sciences companies from the experts, meet prominent business leaders and grow your international network.

After completing the course, participants will receive a certificate of attendance.

5 day interactive programme featuring

"Throughout the week, I gained valuable insights into various aspects of the life sciences business, from product development and intellectual properties to strategic financial planning and business development. Especially enjoyed the mini-hackathon and Harvard Business Case experience! I am grateful to the organizers for creating such an enriching experience, the invited speakers for sharing their knowledge and experiences, and fellow participants for creating a fun learning environment."

- by Ummi Ciptasari, Attendee 2024

"This program was truly inspirational, offering a deep dive into the world of life sciences from multiple perspectives. I learned about business models in life sciences, entrepreneurship, finance, patents, product development, and the transition from academia to industry. Meeting experts from the BioBusiness field was a game-changer. Not only I expanded my network, but I also broadened my knowledge in this field. A special highlight was applying what we learned on pitching our ideas and on Harvard-style business cases, which provided hands-on and practical experience."

- by Francesca Moramarco, Attendee 2024
